Fantasy and Science Fiction - SF Site

Science fiction (often shortened to Sci-Fi or SF) is a genre of speculative fiction, typically dealing with imaginative concepts such as advanced science and technology, spaceflight, time travel, and extraterrestrial life. Science fiction often explores the potential consequences of scientific and other innovations, and has been called a "literature of ideas".

Science fiction - Wikipedia

Fantasy is a genre of speculative fiction set in a fictional universe, often without any locations, events, or people referencing the real world. Its roots are in oral traditions, which then became literature and drama. From the twentieth century it has expanded further into various media, including film, television, graphic novels and video games.
